## State Officials Inspect "Chain of Lakes" Today

### Antioch Lions Are Hosts to Legislators and Depart- ment Heads for Tour

Eighty, including Illinois senators, representatives, heads of state conservation, highway and other departments, are taking part in the "Chain of Lakes Day" tour being sponsored by the Antioch Lions club today.

The journey of inspection, which has the backing of the state conservation department and Livingston E. Osborne, its director, as well as of the Lion organization in general, will include the entire Chain of Lakes, from the Fox River park and state hatchery down to the dam on Fox river at McHenry.

It is being held at this time in line with a nation-wide interest in the study of post-war conservation projects—a topic that has been featured in several magazines of national circulation during the past few weeks and is drawing increasing attention from government, agricultural, sportsmen's and civic betterment associations.

Among the distinguished visitors who had already arrived or whose arrival was awaited at the time, this paper went to press were Reps. Nick Keller, Harold D. Kelsey and Thomas A. Bolger; Sen. Ray Paddock; the chairmen and members of various state departments, and representatives of the Chicago Regional Planning board.

**Dinner at Conservation School**  
Present to welcome them, in addition to the Lions delegates and members, were officials and civic leaders of various communities throughout the lakes region, including Mayors George B. Bartlett of Antioch and Arthur J. Amundsen of Fox Lake.

Climaxing the day's events will be a dinner at the Illinois State Conservation school on the former J. K. Dering estate this evening.

### Conservation Student Will Tell of Ill. Work

Alan Thain, Antioch Township High school student who represented Lake county at an Illinois Conservation department course held at Lake Villa this summer, will write a series of articles on conservation, it is announced by C. L. Kutil, high school agricultural advisor.

Thain introduces the series as follows:

"Years ago when our forefathers came to this country they found it nearly covered with forests. These forests abounded in both game birds and animals. There were many beautiful clear streams in which myriads of fish just waited to be caught. Then as more people came, things changed. The forests were cut down; the land was plowed; the wild birds and beasts were slaughtered. Then things began to happen. The land, now without vegetation, began to erode down into the streams. The streams became muddy and unfit for fish to live in. There was no longer cover for game birds and animals. Predators such as crows, weasels, hawks, could easily catch their prey. Man wantonly destroyed also until many animals became extinct. This situation has become steadily worse instead of better. There are terrible floods in the spring and droughts through the summer. The water table is constantly going down. Game birds and animals now occupy but a small part of their former range.

"What can we do about this? The Department of Conservation knows. Let us try to understand their plans so that we may cooperate with their efforts."

Additional articles which Thain has prepared will be presented at later dates.

### Recreation Alleys Will Reopen for Season Sat.

The Antioch Recreation bowling alleys, closed for resurfacing last week and the early part of this week, will reopen Saturday, preparatory to the start of the league bowling season Monday evening, when the Tavern teams will "roll."

An organization meeting of the Business Men's league is being held this evening at the alleys. The Major league will have its organization meeting there tomorrow night.

An organization meeting of the Ladies' league took place Tuesday evening. The Tavern league held a preliminary meeting Monday night.

Mrs. R. P. Cavanaugh, Kenosha, the former Virginia Radke, spent Friday with her parents, Mr. and Mrs. H. A. Radke.

## Delinquent Taxes Listed for Antioch, Lake Villa Townships

A roster of delinquent taxes for both Antioch and Lake Villa townships is published in this issue of the Antioch News, together with the announcement that on Sept. 25, Gustaf H. Fredbeck, Lake county treasurer, and ex officio tax collector, will apply to the county court for a judgment against and order to sell the lands and lots mentioned for the taxes, penalties and interest accumulated on them.

These properties will be offered for sale in the courthouse in Waukegan on Monday, Oct. 9, at 9 a. m., and the sale will be continued from day to day until it is completed.

In some cases, the ownership of the properties is unknown, and taxes have accumulated over many years. The oldest of them go back to the year 1910.

## Boy, 11, Saves Two from Fire; Mother Dies

### Victoria Lasco, Mother of Nine, Victim of Lake Benedict Tragedy

The prompt action of an 11-year-old boy, Charlie Lasco, saved his infant sister Staffany, one and one-half years old and brother Theodore, four, from death in the fire which cost the life of their mother and destroyed their home at Lake Benedict, Kenosha county, Friday.

Mrs. Victoria Walas Lasco, 44, wife of Walter Lasco and the mother of nine children, was making jelly in the kitchen of their home when kerosene which she was pouring into the stove from a can exploded, setting her clothing ablaze and scattering the flaming liquid about the room.

Mrs. Lasco snatched a blanket from a baby crib and wrapped it about her, but was unable to smother the flames and ran outside toward the family automobile which was standing in the yard.

The home was already in flames, but Charlie, who was just arriving home from school, ran to help his mother, and when she called to him that the babies were still inside, succeeded in breaking through a screen at one of the windows and getting the two youngest children out.

**Pedestrian Fatally Injured**  
Mrs. Lasco was rushed to the Burlington, Wis., Memorial hospital, where efforts to save her life proved unavailing, although she retained consciousness until her death Saturday.

The cycle of tragedy started by the fire was not yet complete, however, for while she was being taken to the hospital the physician's car in which she was riding, struck a pedestrian near Burlington, causing injuries from which he also died the following day.

The Lasco home was burned to the ground, the fire having gained such headway before Walter Lasco could be summoned to the house that no attempt could be made to save it. So intense was the heat that apples on trees nearby were baked by it.

Charlie had come home from school early to care for a neighbor's children when he arrived upon the scene just in time to save his brother and sister.

Also in school were Donna, 6; Barbara, 8; and Edwin, 15, the latter of whom is attending high school.

### Two Sons in Service

A son, Pfc. Walter Lasco, Jr., who is in the army, was called home, and efforts were being made to contact another son in the service, Pvt. Richard Lasco of the U. S. Marine corps.

A married daughter, Mrs. Edward Bauer, was summoned from Pittsburg, Pa., and arrived in time to see her mother before she passed away.

Funeral services were held in New Munster Tuesday, with burial at Genoa City, Wis.

### Clover and Alfalfa Seed Testing Required by AAA

Samples of the 1944 crop of clover and alfalfa seed should be submitted as soon as possible to the Illinois state seed testing laboratory at 603 New Armory building, Springfield, in order to qualify for payments under the AAA program, Lake County Chairman Chester A. Faulkner states.

Returns from samples submitted now should be received before Jan. 1, 1945, Faulkner estimates.

Payment cannot be made until the samples have been tested and returned, showing the amount of good seed, he explains.

## A New Industry Is Born

New industries are the inevitable aftermath of the tremendous human effort involved in modern war. After the last war it was the automobile. After this war, which has hinged on air power, it will be the airplane. The aviation industry, including commercial air transportation, has a future that literally staggers the imagination. The Administrator of Civil Aeronautics, Charles I. Stanton, predicts 300,000 civil aircraft three years after the war, and 500,000 by the end of the first postwar decade. He believes that there will be great need for double the existing 3,000 airports.

Even during the present war, the commercial air carriers have turned in a performance little short of miraculous. By nearly doubling the number of hours aloft for each aircraft, they were able with half the equipment to fly 15 percent more revenue passenger-miles in 1943 than in 1942, 31 percent more express pound-miles, and 70 percent more mail pound-miles. Yet stepped up service was not attained at the sacrifice of safety. Number of miles flown per fatal accident in domestic air carriers operations reached an all-time high of 46,560,835 in 1943, against 22,020,572 in 1942.

Coincident with the growth of the air carriers to the stature of a full-fledged service industry, has risen the problem of regulation. As the close of war draws nearer and as further expansion of aviation impends, this problem becomes increasingly serious. There is danger that conflict between the states and the Federal government will hamper efficient airline service. An example of such conflict threatens in Colorado, which has under consideration a set of airline regulations which, if put in force, would contradict and overlap existing Federal laws, making airline operation through Colorado virtually impossible.

Unquestionably, regulation of the airlines must be unified. How it is to be done is the immediate concern of Congress. The fate of a vast new industry hangs in the balance.

"For us, the Living . . .  
74,000 dead!"

In the U. S. Army alone, since we entered the war—74,000 dead.

Yes, our victorious troops drive on. The news of our advances makes big black headlines.

But, in small factual type, the War Department announces: "74,000 dead . . ."

Let us pause there a moment. Let's forget the movies, the radio shows, the crisp unrealities on which we feed.

Let's remember there are 74,000 who will never again feel the cool, sharp tang of an autumn morning, nor the glow of the noonday sun. Let us remember that they are dead—so many of them before they have fully lived.

They are white crosses on a hundred far fields; they are small gold stars in windows; they are memories in the hearts of mothers.

Victory cannot bring them back. Nor can our prayers, or our remembering.

Then it is for us, the living, in Lincoln's immortal words, to be dedicated to the unfinished work which they have so nobly advanced; for us to be dedicated to the great task remaining before us—

"That from these honored dead we take increased devotion . . . that we highly resolve that these dead shall not have died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people and for the people, shall not perish from the earth."

## District Installations

Antioch was also represented at installation ceremonies held by the Tenth District auxiliary Wednesday evening in North Chicago, when Mrs. Carolyn Horan was installed as treasurer for the coming year and Mrs. Ann Heath accepted an appointive office.

Mrs. Eva Burnette of Antioch was on the committee in charge of the Tenth District auxiliary's loan fund for the past year.

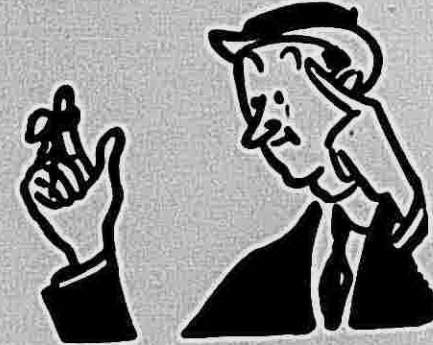

John Horan of Antioch is being installed as senior vice-commander of the Legion's Tenth district organization this year.

In addition to Mrs. Horan and Mrs. Heath, the latter of whom will serve as chairman of the veterans' employment committee for the district, those attending the North Chicago gathering from here included Mmes.

Lillian Hand, Eva Burnette, Maud Johnson, Alma Harden, Margaret Roof, Rose Kennedy and Ann Heath; the Misses Mildred Horan and Charlene Jorgensen.

Antioch was one of two auxiliary units in the district reporting 100 per cent paid-up memberships. The other was North Chicago. Antioch now has 79 members, three over its quota, it was revealed.

The Tenth District Legionnaires will hold their installation Sept. 22, at Lake Forest.

## Soap Cleaning

Walls and woodwork can be improved by a soap and water cleaning that any homemaker can give them. Make a thin soap jelly from the left-over soap scraps by melting the scraps in about ten parts of water to one part soap. Dilute the jelly with some warm water if still too thick, and apply it to painted walls and woodwork with a sponge or soft cloth. Rinse thoroughly with cloths wrung out in cool clear water and wipe dry. Start at the bottom of a wall and work up, always overlapping a little to avoid streaks.

## Income Rises

While personal taxes have increased from about three billion dollars in 1940 to an estimated 16 billion in 1943, total income payments to individuals increased during the same period from 76 billion dollars to at least 140 billion.

## Fatter Oysters

The armed services consume about 40,000 gallons of oysters a week, in season. Oysters will be larger and fatter because the New England beds have now entirely recovered from the effects of the 1938 hurricane.

## Overseas Veteran Speaks

How it feels to be home after more than two years of overseas service was briefly but graphically described by Cpl. Freddie Urh of Waukegan, who served in the Southwest Pacific area with a medical unit.

"I don't know how the folks at home feel about it, but from what I have seen of the boys in action overseas, I don't think the American people can be beat," declared Cpl. Urh, who has been bombed and wounded with shrapnel.

Cpl. Urh, who was present as the guest of Joseph Nemanich, also brought a word of comfort to the American girls—"I don't think they have to worry much about competi-

## NORTHERN ILLINOIS—THE LAND OF OPPORTUNITY

## A city and country market at your doorstep...

### This 4 1/2 Billion Dollar Market Surrounds Manufacturers Located in This Area

With 2,350,000 families living in the area, manufacturers located in Northern Illinois have one of America's richest markets at their doorsteps.

Here is a rich city and country market for the sale of homes, automobiles, farm equipment, appliances, cosmetics and other products that are good barometers of buying power. And distribution is made easy for the manufacturer with excellent wholesale and retail facilities to serve the area.

But this rich primary market is not at the expense of the complete national market. Because manufacturers in Northern Illinois ship the shortest distance for national distribution, they enjoy fast, low-cost transportation. Their products can be delivered to nearly one-half the nation's population in forty-eight hours or less.

## Planless Planners

## GLIMPSES

"Here it comes—there it goes" can be said of the machinery desperately needed by American farmers if they are to keep up the burden of feeding America, her allies, and the conquered nations.

The optimistic statement to the Senate that American farmers are "seeing" the farm machinery they need brought forth the information that most of the machinery "seen" by North Dakota farmers is going past them on the way to Canada, Russia, New Zealand, Australia, England and Africa.

One North Dakota farmer told of seeing six carloads of combines and three tractors passing his farm by rail in one week bound for Canada, while the entire northwest is being forced to curtail food production by lack of farm implements.

## EGGS ON THE MARCH

This is the saga of 108,000 dozen eggs—and a New Deal bureau.

Back last May, the War Food Administration purchased the eggs in Minnesota, ostensibly for war purposes. The eggs were shipped to Cleveland, apparently to be sent into dry warehouse storage.

But the eggs were transferred to an egg-breaking establishment in Missouri. (No cracks, please). From there, the eggs (still not broken)

were shipped to Omaha, and from thence back to St. Paul, from whence they had departed several months before.

They were sent from St. Paul to Chicago, where the Illinois Department of Agriculture caught up with them, decided something ought to be done about these eggs. They had become bad eggs, so the Illinois department official placed a seizure order against them. At last reports, the state officials were awaiting Washington approval to do away with these eggs.

It only cost \$4,200 in freight charges to send the eggs on their cross-country joyride.

a medical discharge and is at home here.

Mr. and Mrs. William Weber were guests of the E. Wegner family at dinner last Sunday and in the evening were at a Chicago hotel for dinner and later attended a show in celebration of their silver wedding anniversary and also of Duke's birthday.

By the end of September, the Lake Villa church will have completed its annual solicitation for the general budget for the year 1944-45. The finance committee announces that there will be a slight increase in the budget goal over the past year in an attempt to set aside funds for a building improvement and decoration program which is to take place immediately after the war. Solicitors will collect pledges or cash, whichever is more convenient for the contributor.

Mr. and Mrs. William Marks went to Goshen, Ind., on Saturday to be present Sunday at the family reunion to celebrate the 55th wedding anniversary of Mr. Marks' parents there.

Mrs. Clarence Blumenschein, re-

corder of the local Royal Neighbor camp, and Mrs. Harriet Davis of Grass Lake, who is oracle, were guests of Mrs. Gladys Ames of Gurnee at her home last Friday evening.

Mr. and Mrs. Bloom, who have recently purchased the Brickman prop-

erty on Grand avenue are getting nicely settled and ready for business.

Mrs. Paul Avery, Sr., is spending a part of the week in McHenry county with Dist. Supervisor Gladys Ames of Royal Neighbors, who is working in that territory.

**How much does it cost to  
move a pin?**

On a war map of the South Pacific, the little red-white-and-blue pins march steadily westward.

Tarawa... Makin... the Marshalls... Saipan... and each move brings the pins closer to Tokyo.

And each move is mighty expensive business. The cost is high in dollars... and the cost is high in men.

To plant the Stars and Stripes on Saipan cost the lives of more than 2000 American boys... plus some 12,000 wounded and missing. Naturally, these losses cannot be summed up in dollars and cents... there is not enough money in the world to bring back 2000 dead Americans.

But in guns, ammunition, and other equipment, it is estimated that Saipan cost us many millions of dollars. Each of the many steppingstones remaining be-

neath our feet and Tokyo may cost as much or more.

**Where is the money coming from?**

It's coming from you, and millions of Americans like you... from the taxes you pay, and from the War Bonds you buy.

And while it may pinch a little, buying those Bonds is the smartest thing you ever did.

For the dollars you put in Bonds not only help win the war. They come back to you later—and bring more dollars with them.

In this postwar world we're going to build, they'll be the most valuable dollars anybody ever owned.

Get all you can of them—now!

### State Flowers

The movement to choose state flowers began in 1890 in New York, strangely enough, since its legislature to this day has not designated a state flower. New York school children chose the goldenrod and later the rose. Oklahoma, in January, 1903, was the first state to take official action and picked the mistletoe as its emblem for display at the Chicago World Fair. Minnesota followed a month later with the lady slipper or moccasin flower.

### Scrub Burners

Cast iron burners on a gas range easily become clogged. It is no trouble to remove and scrub them in a pan of hot suds. If they are very dirty, boil them first in a solution of washing soda. Dried and fitted back in place, they are ready to do their best work.

# THANKS

To Antioch, Its Business Men,  
Our Friends and Neighbors

YOU have accepted the opening of our SERVICE STATION very graciously, and we are indeed grateful.

WE have learned that many of the cars we have had in for REPAIRS required NEW OR REBUILT REPLACEMENTS such as STARTERS, GENERATORS, FUEL or WATER PUMPS, CARBURETORS or perhaps BRAKE LINING.

Others required IGNITION PARTS and some just a TUNE-UP.

THOSE inclined to use POWER MOTORS at home and persons who operate OUTBOARD MOTORS brought them in for SERVICE.

AGAIN WE THANK YOU

## News of the Boys in Service

When Cpl. Charles H. Miller, in New Guinea, sits down to write a letter he doesn't fool around—he really writes one—

"Well, I don't know how to start, but for the next few lines, I'll hang my head in shame and apologize for not writing long before now.

"Ah, these beautiful 'South Sea Isles'—and mostly New Guinea, which I am sending you a poem about. It was written by a GI who has spent some more time than myself in this particular region, and any GI in this territory will swear by this poem.

"I was on a rather nice small island a little while back when we made a landing with a task force, but I only got a chance to stay for a few days and then had to come back to the mainland, where I am at present.

"Quite some time back, I received Wilson King's address which his sister, Mrs. Powles, gave to my sister. I knew I wouldn't have much time to try and locate him. I made two attempts, and the first was a jeep ride I'll never forget. He was located at the end of one of those paved New Guinea roads where you can stand in mud up to your knees and get dust blown in your eyes.

"It was a good 80-mile trip—to find that he was detailed to another spot and, as it was too late that day, I made another attempt two days later, to find that he wasn't in. I left that particular place within the next few days without seeing him, but I left a note pinned to his cot that I am quite sure he will remember for a few days.

"Another reason why I remember that first ride was, that I got a ticket for speeding, but never did have to pay it, because we moved before it came up to the Provost Marshal. I so clearly remember the MP's face when he asked me how long I had been in the army, and I said—'Two weeks'—Well, that's when the ticket book came out.

"So far, my Jap score is '0,' but the season isn't over yet, and I still have hopes.

"There are a lot of them around, but in the hills, and every day some of them get so hungry that they come down and give themselves up.

"At times when movies and U. S. O. shows can be held, we have managed to do all right.

"The only bad thing about our unit is that I think it is allergic to alcohol. So far, we have missed getting beer rations at five different places, and if you think we are not dry, you will have to think again. We all say, 'Well, the next place will be it,' but at the rate we are going, I think we'll keep that motto until we invade the good old U. S. A.

"I did receive the Antioch News for 16 months pretty regularly, but for the past four it hasn't caught up as yet, and I sure appreciate it and I know that everyone else who receives it does, also. I hope you have my new address by now, and that I am in line for that interesting news again.

"You can tell Mr. Smith from the First National bank that I have become quite chummy with his brother-in-law, Morris Richelt, who has been with us for two and one-half months. There is also a fellow named Person from Grass Lake, whom I didn't know until three months ago, although he has been in the same battalion since it started 20 months ago. There are also a few fellows from Libertyville with us.

"Personally, I feel very well and am getting along fine. I hope everyone, in particular from our territory, in the service is doing as well, and so with greetings to all and hope for a quick climax to the war, I'll close for now, and I hope to get a copy of the paper with the following poem in it—

—V—

### "Green Hell"

"We are sitting and thinking  
Of the things we left behind;  
We would hate to put in writing  
Just what is in our mind.

We have dug a million ditches  
And cleared off miles of ground,  
We've unloaded millions of boats  
From the docks we've built around.

But there is one consolation,  
Gather 'round me while I tell—  
When we die we'll go to heaven,  
For we've done our stretch in hell.

We've built a million kitchens  
For our cooks to burn our beans;  
We have stood a million guard  
mounts,  
And we've cleaned the camp be-  
tween.

We've slept at night with scorpions,  
And we've peeled a million spiders;  
We've killed a million snakes and  
ants,  
Who tried to steal our grub.

When our work on earth is over,  
Then our friends behind will tell,  
'When they died they went to heaven,  
For they have done their stretch  
in hell.'

When the final Taps are sounded,  
And we lay aside life's care,  
And we stand for last inspection

On the shining golden stair,  
The angels all will welcome us,  
Their golden harps to play;  
We'll draw a million counter checks,  
And spend them in a day.

It is then we'll have St. Peter  
Tell us loudly with a yell,  
'Come in, you boys from Guinea,  
For you've done your stretch in  
Hell!'

Second Lieutenant Elmer O. Barth drops a card to say that he is no longer at Camp Breckenridge, Ky., but has been removed to Camp Gordon, Ga.

Frederick August Techert, S 1/c, USNR, has returned to the Armed Guard center at New Orleans, La., after five months' duty afloat as a member of the Navy gun crew on a merchant ship. He visited ports on the English coast.

Gunner Techert enlisted Nov. 22,

1943, taking his boot training at Great Lakes. He is a graduate of Antioch Township High school, and was employed by Nash Kelvinator corporation at Kenosha prior to entering the service.

### CHARLES CERMAK RECEIVES FIRST CLASS YEOMAN RATING

## SHIRLEY HOLLENBECK MURPHY TELLS OF LIFE IN FRANCE

First Lieutenant Shirley Hollenbeck Murphy writes to her parents, Mr. and Mrs. O. L. Hollenbeck, Route 45, from France—

"Things have been a bit rugged but being the country girl that I am, have been able to fare well under such conditions as France has to offer these days.

"It has been fine in spite of everything—we have such a wonderful group of people in our outfit. Please don't worry. All nurses are well looked after by everyone over here. . . .

"Yesterday I spent re-packing again, trying to arrange my bedroll into a comfortable mattress. Have all the bumps out now, so had a grand night's sleep. No doubt the patter of rain drops on the tent helped some. . . .

"We will be working alternate shifts on the hospital train with another unit. . . . Eventually we will have our own train. . . .

"Sweet of Ida to get the soap for me. It will help to glamorize bathing in a helmet. . . .

"I'm in a small wall tent with another chief nurse—a captain—the other five girls are in a larger one. Managing very nicely on our rationed water.

"Found a French woman to do our laundry (our outer garments). Getting to be the best laundress in the army.

"There is a continuous flow of traffic going both ways on all roads. . . . 'Will tell you my stories when I get back.'"

—Lt. Murphy is a graduate of Antioch Township High school, having made her home for a time in Antioch with the N. E. Sibley family while attending school here.

pale creamy golden color to a greenish chartreuse.  
 "Unlike the water lilies and their pads, the lotus flowers and their big, graceful leaves rise high above the water on long stalks.  
 "While it is true that various species of lotus are found in diverse parts of the world, in other parts of the western hemisphere, as well as along the Nile and in the famed lotus beds of Grass Lake, the golden lotus here closely resembles in contour and general appearance the pink Egyptian species."  
 —Looks to us as though the time is ripe for some GI to make the acid test of planting a few Grass Lake lotus seeds in the Nile, and bringing a few from the Nile here, planting them, and then seeing if they grow and how they flourish in their exchanged habitats.
